A telegram was received on Saturday morning from the Calgary football club saying that they would be in Edmonton on Monday night. They are reported to be bringing up a very strong team. The Edmonton team will be short of one of its best players, H. Edmiston, who has been in the game at Calgary, but has every confidence in its ability to put the visiting team on its mettle on Tuesday.

BISHOP YOUNG of Athabasca, in a letter dated Dunvegan, September 14th reports that last winter Albert J. Kneeland while engaged in driving cattle some twenty miles above Vermilion on Peace river, observed a heavy smoke arising from a place where a considerable land slip had occurred. Being in the vicinity a few months later he noticed the smoke was still rising and the ground was bare of snow in the vicinity where the smoke was proceeding from. Last August Bishop Young and Mr. Kneeland visited and carefully examined the broken ground in the neighborhood of the land slip and found that the smoke exuded from some deep fissures occasioned by the land slips and strong fumes much like those from a brick kiln arose. Burning paper was dropped down these fissures but no result followed, clearly proving that the heat and fumes arise from a different source than in the gas springs on the Athabasca river. Bishop Young is of the opinion that the burning which has not been more than two years in existence arises from a seam of coal which the land slide has exposed. The face of the river bank in the vicinity is marked by a bluish shale which frequently discolors the banks of the Peace River.
